

Save Lives, Don't Shatter Them!

Be a hero, not the cause. Stay under the limit, or take an alternative action.

Phone 911 to report a drunk driver!

Let's change this world and make it free of harm's way.

Save Lives. Don't Shatter Them!

God had a special plan for all of us to live a full and successful life and to take care of our society and the people in it. People who kill people because they drank and drove are breaking a commandment and are affecting a family severely. We should be trying to keep drunk drivers off of the street and not just standing by and abandoning the situation because in all reality, how do things get dealt with if no action is taken?

We should not be drinking or driving either because we could get into a tremendous car accident and harm either ourselves or an innocent person who doesn't deserve to be harmed over someone's bad decision. People who are under the limit should phone a cab or a friend to pick them up because once you go over the limit, it temporarily affects your brain. Sometimes people think they are okay and the same until they get into a serious car accident.

I watched this video with my class called "Shattered" and it was an emotional video with great value because it showed families and real life situations of how people are affected by drunk driving and if you think I'm kidding, you should watch it and learn a lesson from it.

So, instead of shattering lives, we should be saving them and keeping drunk drivers off of the street to save lives.
